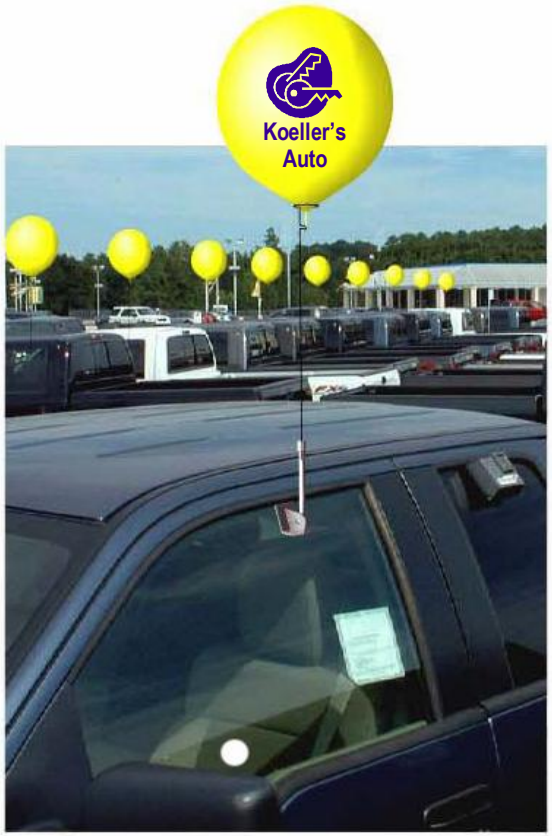
Car Window Adapter

User Guide

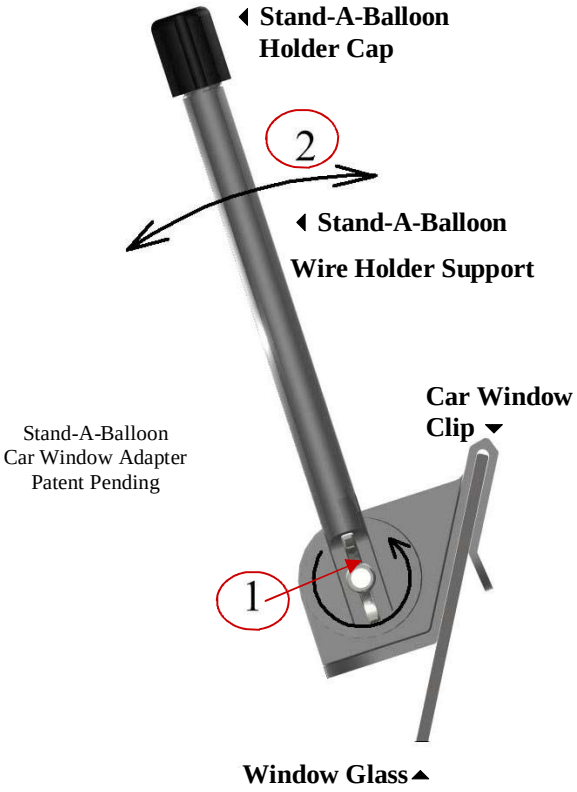


1

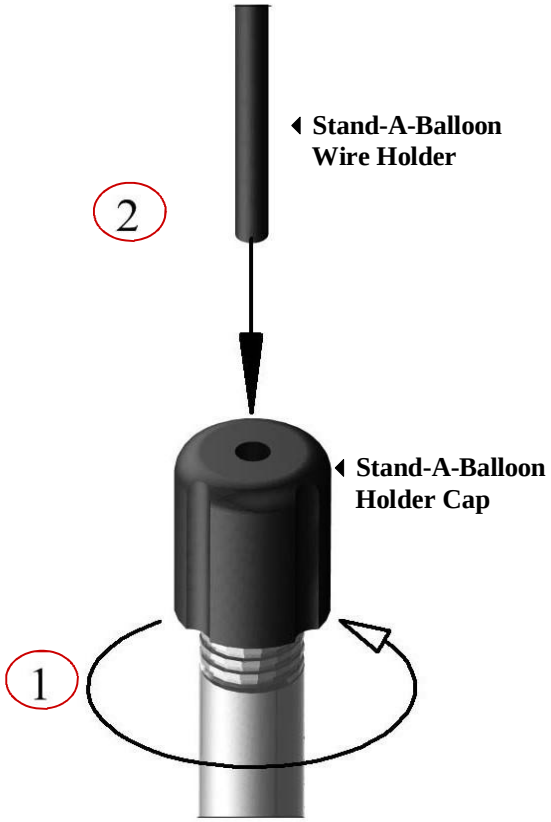
Lower either the driver or passenger window enough to overlay car window clip onto the top of the car window. Once attached, close window to secure the Car Window Adapter.

2

1. Loosen wing nut two or three turns.
2. Adjust pole support to desired position and tighten wing nut.



3



1. Loosen cap three or four turns counter-clockwise.
2. Insert a medium Stand-A-Balloon holder (sold separately) through the hole in the top of the cap. The Stand-A-Balloon wire holder should sit firmly in the bottom of the cap.
3. Tighten cap firmly to hold wire in place.
