### Instructions for 6 ft. Helium Quick Link Column ▶

- Materials:** 6 12" Quick Link Balloons  
1 12" Quick Link Balloon filled with approximately 4 oz. of water or anything that weighs approximately 3-4 ozs.
- Helium:** 3.6 cu. ft. (Call your local welding supplier to rent a helium tank.)

**Instructions:**

- Inflate a Quick Link Balloon with helium and tie a knot in the neck. Tie to a water balloon.
- Inflate the additional Quick Link Balloons and create a chain by tying each additional balloon to the tip of the previous balloon. It is not necessary to tie the neck of each individual balloon. You can simply tie the neck of one balloon to the tip of another.

### ▲ Instructions for 8 ft. High x 10 ft. Wide Helium Quick Link Arch

- Materials:** 16 12" Quick Link Balloons  
2 12" Quick Link Balloons filled with approximately 4 oz. of water or anything that weighs approximately 3-4 ozs.
- Helium:** 6cu. ft. (Call your local welding supplier to rent a helium tank.)

**Instructions:**

- Follow the instructions for making a Quick Link Column. Build two columns making each column using 8 Quick Link Balloons.
- Tie the top of one column to the top of the second column combining them to make an arch.

**Note:** Quick Link imprints may not line up precisely balloon to balloon, once tied/assembled.

### WARNING:

#### CHOKING HAZARD

Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
